

Hello! My name is *Daniel Di Cicco* and I am a Business Administration - Marketing graduate from the University of Guelph-Humber. I am currently interning at the Ontario Co-operative Association as the Membership and Communications Intern. During my internship at the Ontario Co-operative Association, I have had my hands in, and have led several important projects. A few examples of these projects include the reformation of the current On Co-op website, the creation of Social Media Policies and Procedures, the creation of the On Co-op corporate brochure, the creation of the On Co-op Spirit Awards Video Hall of Fame, among many others! I am also currently sitting on the Ontario Co-operative Association's Marketing Committee and the Event Planning Committee, and have gained valuable experience through these projects and committee positions.

Some of my career interests lie in graphic design and digital art, marketing and communications, and musical composition. These passions can be used independently or collaboratively! I am currently looking to gain more experience in the marketing and communications field, within the co-operative sector. Feel free to contact me!
